

THE MEN TRAINED AND READY TONNAGE CRUX OF SITUATION

POST AS DESERTERS IF MEN NOT FOUND

List of Drafted Men Whose Questionnaires have been Returned to Local Board by P. O.

Any One Knowing Whereabouts Will Help Men and Board by Informing Board of Their Address

Herewith is a list of names of men whose questionnaires have been returned to the local draft board marked "Addressee moved; left no address."

Anyone knowing the whereabouts of these men will help the men and the government patriotically by informing the local draft board of their whereabouts.

Unless these men are found, they will be posted as deserters from the United States army.

Declares Every Man National Army Camps Ready Go to France

(By United Press)
Washington, Jan. 28.—Declaring that every man in 32 national guard and national army camps were now ready for France whenever needed, Secretary Baker struck back at the critics of the war department. He said that laxity in the army hospital department had not been tolerated, three officers having been court-martialed and dismissed on account of negligence in attending the sick; that Gen. Pershing himself O. K'd the endorsement of the modified Enfield rifle; that the great army had been called out before the guns were ready upon the suggestion of Major General Wood, who said that they could be given training other than that needing guns; that every man in France now has his gun and is trained to use it; that many times as many men are now in France as was originally planned; that Gen. Pershing himself decided upon the Lewis machine gun for land work; that 300 anti-air craft guns will be ready in this country in another year; that camp hospitals are equal to civilian hospitals and are in splendid shape. The tonnage is the crux of the situation, and Americans now in France are using French artillery to save ships for other purposes. The allies urged that troops be sent before anything else saying that England and France could supply the artillery.

Actual Battling Expected Soon American Forces

(By United Press)
Washington, Jan. 28.—The French announcement of American participation in actual battling is expected soon, following the report of last week that several had been killed in action.

American Patrol Vessel on Rock and is Abandoned

(By United Press)
Washington, Jan. 28.—An American patrol vessel operating in European waters ran on a rock January 23 while driving through a heavy fog, and the vessel will probably have to be abandoned. No casualties.

British Airmen Raid Manneham and Cause Terror

(By United Press)
London, Jan. 28.—British airmen in raiding Manneham on Thursday night caused unparalleled terror in that city according to Geneva dispatches. Despite police orders the people half clothed rushed into the streets. The British raiders scored direct hits on the barracks. After the raid travelers said the crowds assembled shouting "down with the war, give us peace."

Ukrainians Fight Bolsheviks for Possession Tuck

Amsterdam, Jan. 28.—Ukrainians are bitterly fighting Bolsheviks seeking to gain possession of Tuck. They asked for assistance from the Austrians and were refused.

Disavow Annexation

Amsterdam, Jan. 28.—German Foreign Minister Kuehlerman, speaking before the reichstag, distinctly disavowed annexationist principles.

JOHN LIND
Has been named chairman of labor advisory board.

John Lind, former governor of Minnesota, was named by Secretary Wilson as chairman of the advisory council that will assist in the administration of a labor war program entrusted to the department of labor by the President. Six men and one woman were named on the council.

Outlines America's War Work for Country Before Committee

(By United Press)
Washington, Jan. 28.—To offset the impression throughout the world that his department fell down Secretary Baker outlined America's war work to the country when he appeared before the senate military committee. He said "I am not here to defend myself or deny that mistakes and false starts were made, but when we found errors we immediately sought to a remedy."

Eight Inches Snow Kansas and Missouri

(By United Press)
Kansas City, Jan. 28.—From three to eight inches of snow has fallen over Kansas, Missouri and Oklahoma.

Photo of German Aeroplane Dropping Bomb

This remarkable photograph was taken just as a German aeroplane was dropping a bomb from the aeroplane in the foreground. The bomb, which had not yet got under full speed is plainly visible.

Orders are Orders and Must be Obedied Regardless of Rank

(By United Press)
(By J. W. Pegler, U. P. Cor.)
With the American Army in France, Jan. 28.—Orders are orders, and merely two or three silver stars on a general's shoulder makes no difference to Sammy if the wearer is not playing the game according to the rules laid down. "Two generals during recent moonlight maneuvers were directing the movements and walking along the trench. None are allowed to walk on the parapet 'in sight' of the enemy. One general, too big to fit in the trench and another who did not want to muddy his boots, were both walking on the parapet. Sammy challenged them and they answered 'We are generals.' Sammy retorted 'We don't give a damn if you are President Wilsons, get down into that trench.' and down they went just as Sammy lunged at them with his shining bayonet."

Cold and Storms on Eastern Coast on Heatless Day

(By United Press)
Washington, Jan. 28.—With thousands of industries closed during the second heatless holiday cold and snow sweeps the eastern seaboard and clogging freight. Six inches of snow had fallen here at 7 o'clock.

Demands German People Revolt to Save Themselves

(By United Press)
Amsterdam, Jan. 28.—The Deutsches Tages Zeitung, copies of which were received today, openly demands that the German people revolt to save themselves and refers to the kaiser as Germany's hangman.

Industrial Unrest Rhenish District

(By United Press)
London, Jan. 28.—Several disturbances have occurred in the Rhenish industrial districts, reports from the Hague say. One dispatch states that machine guns have been given the troops at Mulheim.

AUTOMOBILE SNOW PLOWS MADE HERE

John F. Woodhead "Bull Moose Plow" Makes a Hit and Six to be Manufactured at Once

Stauder People Enthusiastic, Plow Shipped to Minneapolis by Express, Exhibited at Auto Show

The Revolutionary Demands on Kaiser in Labor Interests

(By United Press)
Washington, Jan. 28.—The outline of the revolutionary demands the kaiser government will make for German labor, which reached the American government today, show that they ask more of the despotic kaiser than American labor asks of its democracy, and the program may play an important part in the settlement of the social upheaval reported there. It provides an eight-hour day six days of the week and provides that Sunday work will only be done when absolutely necessary and the provision requires that when Sunday work has to be done the workers shall have a day of rest during the week days. The laws relating to woman's labor are drastic.

Knights of Pythias Permitted to Increase Its Insurance Rates

Washington, Jan. 28.—The supreme court has allowed the Knights of Pythias to increase their insurance rates, reversing the lower court.

GEN. WOOD WOUNDED

Accidental Explosion Causes a Slight Injury to Arm.

Distinguished American Has Been With General Pershing For Some Time.

Washington, Jan. 28.—Announcement is made that Maj. Gen. Leonard Wood has been wounded in France. He was the victim of an accidental explosion. One arm was slightly injured. Announcement of the accident was made by the Secretary of War.

Lieut. Col. Charles E. Kilbourne and Maj. Kenyon A. Joyce also were injured. Colonel Kilbourne received a wound in the eye and Major Joyce's arm was hurt. Five French soldiers were killed outright.

Secretary Baker has cabled General Pershing for full details.

The War department statement follows: "A cable dispatch from the headquarters of General Pershing just received states that an accidental explosion occurring there killed five French soldiers and injured Maj. Gen. Leonard Wood slightly in the arm, Lieut. Col. Charles E. Kilbourne in the eye, and Maj. Kenyon A. Joyce in the arm."

General Wood has been in France for some time. His presence at General Pershing's headquarters was learned simultaneously with the announcement of the testimony of Representative Medill McCormick of Illinois before the Senate Military affairs committee last December.

Mcormick quoted Lloyd George as expressing wonderment over what had become of General Wood. The British premier was surprised that so distinguished a soldier should be "killed" when the United States was engaged in such a great war.

John F. Woodhead's "Bull Moose" auto snow plow has taken the world by storm.

When E. G. Stauder, head of the big Stauder tractor company, saw the movies of the plow in action, saw the snow tossed about and a clean path made through the drifts, he said: "Get that plow right away."

The plow is to be expressed to Minneapolis in time for the auto show there and in Chicago.

Orders have been received for six of the plows and Fremont Turcotte is doing the woodwork and Joe Hartell the iron work on the plows.

"Tell you what," said John F. Woodhead of the Woodhead Motor Co., "we've started a snow plow factory right off the bat and added a new industry to Brainerd before the people knew what's the matter."

The movies of the plow in action on North Seventh street, at the gas plant and on East Oak street will soon be shown at the Best theatre.

PREPARING TO STRIKE AT U. S.

For Refitting U-Boats For Offensive Against America.

Washington, Jan. 28.—Warning that the Germans are preparing for a great submarine offensive against the American lines of communication with France in connection with the impending Teutonic drive against the West front is given by Secretary Baker in his weekly military review.

Recently there has been a marked decrease in the number of Allied merchant ships sunk by submarines. The explanation for this is found in the withdrawal of submarines in preparation for the coming thrust on land and seas. The review says:

"During the past fortnight enemy submarines have been recalled to home ports to be refitted and the most powerful submarine offensive ever launched against our lines of communication with France, to interrupt the steady flow of men and munitions for our own armies and food supplies for the Allies."

DOZEN KILLED BY EXPLOSION

Three Bomb Proofs Wrecked at Newport Naval Station.

Newport, R. I., Jan. 28.—Three bomb proofs at the naval torpedo station here were wrecked by an explosion of fulminate of mercury. At least 12 civilian employees were killed and seven were injured, one probably fatally. Ten others were buried in the ruins of the heavily concreted structures.

A rescue party heard voices in the ruins of No. 1 bomb proof. A pipe was sunk to the spot and it was learned two men were alive. They were given stimulants and nourishment, but both died before they could be taken out.

Captain Edward L. Beach, commandant of the station, said none of the survivors was able to give an account of what happened, but there was no doubt, he asserted, that the explosion was accidental.

BIG OMAHA HOTEL CLOSED

Proprietor Fined \$300,000 For Violating "Dry" Law.

Omaha, Neb., Jan. 28.—For alleged continual violations of the state prohibition law, Judge Day, in district court, signed a decree closing the 300-room Millard hotel here for one year. The furniture and fixtures were ordered confiscated and sold, the proceeds to be given to the school fund. A fine of \$300,000 was laid against the proprietors.

Had the Grip Three Weeks.
With January comes lagrippe.
Lingering colds seem to settle in the
system, causing one to ache all over,
feel feverish and chilly, tired, heavy
and drooping. Mrs. Lizzie Tyles,
Henderson, Ky., writes: "My daughter
had lagrippe for three weeks. I
gave her Foley's Honey and Tar and
now she is all right." H. P. Dunn,
druggist.

**Pay by
Check—
Ten Reasons Why**

1. A check when cashed becomes a receipt.
2. A check is always the "right change."
3. A check records permanently to whom paid, when paid and amount paid.
4. Merchants prefer checks, because they are safer than cash.
5. Paying by check prevents loss of money by theft, carelessness or accident.
6. Your check carries the money to the right person.
7. Paying by check is proof of your carefulness in business.
8. Checking depositors receive especial consideration from the bank in time of need.
9. If a check is lost, it is valueless to finder.
10. Last, but not least, having a checking account is a great help in accumulating a cash reserve.

**ONE ERROR MADE
BY "THE FATHERS"**

MAKERS OF CONSTITUTION BE-
LIEVED PEOPLE LESS STABLE
THAN REPRESENTATIVES.

TOLD IN SUFFRAGE DEBATE

Late Augustus P. Gardner Was the
Senior Member of the "Son-in-Law
Club" Though Nicholas Longworth
Claimed Its Presidency.

By ARTHUR W. DUNN.
Washington.—Always in debates in-
volving Constitutional questions great
admiration is expressed for the wis-
dom of the makers of the Constitu-
tion. Reverently they are referred to
as "the fathers," especially by those
who believe that the fundamental law
—one of great compromises, to be sure
—should not be changed. But it has
become quite a common thing to
change the Constitution during these
later years. Two important changes
have been made within a few years,
the income tax amendment and the
election of senators by direct vote of
the people. Within a short time, it
seems certain, there will be two other
important amendments, prohibition
and woman suffrage.

With all their wisdom there was
one thing that the fathers did not
know; they did not know that the
people would be more stable, less in-
clined to change, and more conserva-
tive than the representatives of the
people.

For example, it is very doubtful
whether the prohibition and woman
suffrage amendments could be adopted
if submitted to a vote of the people
of the several states instead of to
the legislatures of the states.

The fathers believed that the
chosen representatives of the people
would be slow to make changes and
could be trusted better than the peo-
ple, hence they provided that the peo-
ple could have no direct voice in
changing the fundamental law of the
land.

Developed in Debate.

These facts were developed during
the woman suffrage debate. Several
times it was shown that the legisla-
tures were favorable to woman suf-
frage and had submitted the question
again and again, but woman suffrage
was defeated by the people. "The
only way we can get woman suffrage
is by a federal amendment," was the
tenor of several speeches, "because,"
it was explained, "our legislatures
will vote to ratify, but our people will
not vote for woman suffrage."

Along this same line it was observed
that a large majority of representa-
tives in the house from states that
had voted down suffrage voted in
favor of the amendment.

The late Augustus P. Gardner was
really the senior "son-in-law." He came
into prominence when he was elected to
the Fifty-seventh congress to fill a
vacancy caused by the resignation of
William H. Moody, whom President
Roosevelt appointed secretary of the
navy.

Gardner blossomed into notoriety as
the son-in-law of Senator Lodge. The
Massachusetts senator was at that
time the second man in the nation on
account of his relations with President
Roosevelt. Naturally every mention
of this bright young man included the
words, "he is the son-in-law of Sena-
tor Lodge." It was galling to Gard-
ner, although he was a great admirer
of the person he frequently referred to
as "my respected father-in-law." But
the fact remains that Gardner was
the "senior son-in-law."

Longworth "First President."
Whatever may be the position of

Nicholas Longworth as a son-in-law,
and he claims to be the first president
of the "son-in-law club" Gardner was
his senior so far as Washington public
life is concerned. Gardner had felt
the handicap of being the son-in-law
of a great man long before Nick had
wooded and won Alice Roosevelt as his
bride. But the "fierce light which
beats upon a throne," naturally
brought Longworth into prominence,
especially as the son-in-law of such a
man as Theodore Roosevelt.

There were many jokes passed back
and forth in Washington about sons-
in-law, but it is a fact that both Gard-
ner and Longworth had ability enough
to stand on their own merits and both
won positions of prominence in the
house.

Senator McChamber of North Dakota
appeared as the first real navy critic
in congress. He claimed that the navy
was old-fashioned, fossilized, set in a
groove, dotting on dreadnaughts, while
it did nothing toward building ships to
meet the U-boat menace. Senator
McChamber called attention to a speech
he made last April, when he pointed
out that the war would be won by Ger-
many with her U-boats unless the al-
lies found means to destroy the U-
boats and build ships which the sub-
marines could not destroy.

Easter Island Sculptures.
The stonework and sculpture of the
Peruvian city of Cuzco are supposed to
have occupied 50 years, and some 20-
000 men, in the process of execution.
It is unlikely, however, that such a
horde worked at the Easter Island
monuments, and a recent English ex-
plorer, Mrs. Scoresby Routledge, is of
the opinion that the easily worked
stone of which these are composed
would not have consumed more than
a fortnight's labor for one statue.

Time for Seeing Appointed.
Our eyes are holden that we cannot
see the things that stare us in the
face until the hour arrives that the
mind is ripened; then we behold them
and the time we saw them not is like
a dream.—Emerson.

Be Explicit.
Many a salesman loses a sale be-
cause he expects to be understood. A
salesman must not expect anything; he
should be explicit if he don't want to
be disappointed.

Poor Human Nature.
"A lot of men," said Uncle Eben, "is
fairly successful, only dey's jes' nathe-
lly so dissatisfied dey won't ad-
mit it."

Optimistic Thought.
There is a sufficient recompense in
the very consciousness of a noble deed.

Perhaps if your head were
as clear as a whistle, it
would not ache—

**Do Something
Better Than the
Other Fellow---
and ADVERTISE**

Advertising cannot accomplish the impossible
any more than barren ground can yield rich crop.

But how advertising does make things hum
when the product and proposition are right, the
men and methods above board, when there's an
honest purpose and earnest effort from bundle
boy to general manager to serve efficiency, to
deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue
your organization with the spirit of true service,
make your business worthy of the good will,
the confidence, the patronage of the people.

In this fertile field then sow the seed of ad-
vertising and it will bring forth abundant crops
in increased business and augmented prestige.

Your store news in the Dispatch will be read
in practically every home in Brainerd and vicin-
ity every evening.

 Home Rendered Lard, lb.....30c

ALL CASH ONLY FOR WEDNESDAY

Frank's Meat Market

1111 Oak Street Both Phones Brainerd, Minn.

New Departures in Sleeping Garments

Sleeping garments are shown in such a variety of designs this season that every lover of fine lingerie may choose among night dresses, pajamas, pantalettes with mandarin coats and combinations that are neither night gowns nor pajamas but a little of both. The two-piece garments are mostly made of crepe-de-chine or wash satin, but night gowns remain fairly faithful to fine cottons. Whether of cotton or silk they are lace trimmed or embellished with fine embroideries. Flesh and pink are the favorite colors for silk sleeping garments with embroidery in the same color and laces in white. Occasionally white satin mandarin coats are bordered with a light color in satin, to be worn with pantalettes to match. In the most elaborate sets the coats are embroidered in gay floral patterns in several light colors.

Among the prettiest and most desirable of new night gowns there are some specimens that are entirely home made. They are of crepe-de-chine or satin with yokes or trimming of home

made crochet. Small medallions, much like those that are familiar to us in the Irish crochet laces, are made of colored silk floss, matching the crepe or satin to be used in the night dress in color. The medallions are set in about the neck and along the edge of the short sleeves, which are cut in one with the body of the garment. A narrow beading and edge of crochet finishes the neck and baby ribbon threaded through the beading, provides the means of adjusting the gown to the shoulder.

In the night gown pictured, of flesh-pink satin, the crocheted yoke in the same color has bands and figures in pale blue worked into the pattern. If longer sleeves are wanted, elbow length ruffles of satin or plaiting of georgette may be set on to the crocheted bands. This is a very interesting garment for the girl who is making her trousseau.

Julia Bottanly

WOMAN'S REALM

At the Best Tonight

Virginia Best, in "Thou Shalt Not Steal," a clever detective story, will be the attraction at the Best tonight, being seen in the role of Mary Bruce.

Mary Bruce is a girl with fighting blood. She has a mind and will of her own, especially concerning matrimonial matters. Mary loved and is loved by Roger Benton, her father's secretary. She has been wooed for some time, both here and abroad, by Lord Haverford. When his Lordship began his suit for Mary's hand he was far from strong financially. When he came to this country to press his suit—the time this story opens—he had gained a fortune and vowed to Mary and her father that he had come to unite his wealth with their family.

Henry Bruce is more than complimented by the lord's plan. He needs \$100,000. Mr. Bruce sees a chance of getting it through his daughter.

When Mary puts the matter squarely before her father, asking if he intends to make her the price of putting him on his feet, he avoids the issue, begging her to jolly his lordship along until he can use the money and repay it.

Sure that Mary will do this Bruce borrows \$100,000 from Lord Haverford and puts the money in his safe. Only Bruce, Benton and Mary have the combination to the safe.

Many complications ensue which makes an intensely interesting and exciting detective story.

Leaf-Bark

At the parsonage of the Swedish Lutheran church Jan. 25, there was solemnized the wedding of Jeanette M. Leaf and Elmer W. Bark, Rev. E. G. Carlson officiating. They are both from Pine River. The bridegroom has a grocery store at that place. The bride has attended the Brainerd Business College. They will make their home in Pine River.

Missionary Society

The Missionary society of the Swedish Lutheran church will meet at the home of Peter Erickson on South Thirteenth street Tuesday evening at 8 o'clock. This will be the annual meeting.

Her Trouble is Gone

Mrs. Thos. H. Davis, Montgomery, Ind., says she had trouble with her bladder and had doctored for several months without relief, when Foley Kidney Pills were recommended and she commenced using them and got relief. They relieve backache, rheumatic pains, stiff, swollen joints and kidney trouble. H. P. Dunn, druggist.

Lyons-Johnson

On Saturday evening at 7:30 o'clock was celebrated the wedding of Miss Rose Mary Lyons to Harold Johnson, Rev. E. G. Carlson officiating at the parsonage of the Swedish Lutheran church. The principals are of Brainerd.

The bridegroom is employed at the Northern Pacific railway shops. The bride has a large circle of friends. They will make their home in Brainerd. The Dispatch joins their many friends in wishing them continued happiness and prosperity.

Rebekah Social Club

The Rebekah social club will meet at the home of Mrs. Susan Bolker, 1024 South 6th street on Tuesday January 29. Come and bring a friend.

Was Feeling All Run Down

Louis Buckner, Somerset, Va., writes: "I was feeling all run down; tired, with pains in my back. After taking Foley Kidney Pills I felt like a new man. Backache, rheumatic pains, stiff joints, sore muscles, swollen ankles, and sleep-disturbing bladder ailments yield quickly to this time-tried remedy. H. P. Dunn druggist."

Many Americans Enter Canada.

Three and a half times as many immigrants from the United States into western Canada arrived during the first nine months of last year as during the same period in 1915, according to figures furnished by the department of immigration. The number of such persons for the first nine months of the year 1915 was 8,327; for 1916, 14,022, and for 1917, 29,918. The amount of cash and effects brought in by these immigrants does not show the same proportionate increase for this year over 1915 as did the number of persons. The total of cash and effects was \$2,156,876 for 1915, \$3,319,943 for 1916 and \$5,914,033 for 1917.

Grim Exchange.

"Cut out that scythe and hour glass," demanded Father Time. "But," protested the artist, "I have pictured you that way for years." "True. But this is altogether a different year. You want to portray me with a machine gun and a gas mask."

Sugar and Ships

In the interest of the public it serves, the American Sugar Refining Company is earnestly supporting the Government's policy to regulate the supply of sugar so that it shall be sufficient for the needs of all—our soldiers, our Allies and ourselves.

With the new crop of cane sugar coming in, the sugar situation is more favorable than it was a month ago. There will be sugar enough, according to present indications, if extravagant use and waste are avoided.

War has disturbed the whole world's sugar supply. It has not only wiped out any available surplus, but it has put all nations on a hand-to-mouth basis.

The European Allies were the first to feel the pinch. Before the war, enough sugar was produced on the Continent to supply all Europe. Today, two-thirds of this sugar-producing area is within the battle lines.

England, France and other nations have had to turn elsewhere for a supply of this indispensable food.

And they came to Cuba—the main source upon which the United States depends for its cane sugar. During 1917, Cuba sold and shipped to Europe nearly 1,000,000 tons of raw sugar—one-third of its crop.

In addition to the normal increase in the consumption of sugar as food in this country, the nation-wide movement to save the fruit crop last season greatly increased its use.

But this increased consumption of sugar has been a real factor in combating waste. It enabled the American housewife to add to the store of the food of the nation at a time when fruits and vegetables were plentiful and cheap.

The sugar is not only in the fruit jar, but it has carried into the pantries of the country a vast supply of fruit and vegetables which would otherwise have been lost. Sugar itself is not only a food, but it is also the great preserver of other foods.

As the demand for sugar grew, both here and abroad, Cuba's supply was exhausted last fall. Every available ton in Porto Rico and other cane sugar countries was acquired. But this was not enough, and the shortage came.

In war time and at all times it is our aim to safeguard the interests of the public we serve.

American Sugar Refining Company

"Sweeten it with Domino"

Granulated, Tablet, Powdered, Confectioners, Brown

At the same time, an abundance of sugar was and still is locked up in far-away Java, as unavailable as unmined gold—because ships cannot be spared to transport it.

Every 5,000-ton ship which can be saved by giving England sugar from Cuba means the release of a ship which can make three trips and take a total of 3,000 soldiers from the United States to France.

If we can save the Allies from taking any Java sugar in 1918, we will release for transport purposes enough ships to carry over to the Western front and supply about 150,000 to 200,000 soldiers.

At the same time, we will also be giving the Allies the necessary sugar. Therefore, it is to the interest of the common cause to save ships and send soldiers.

The American Sugar Refining Company has put forth every possible effort to keep up the supply of sugar for the United States, even in limited quantities, and to stabilize the price to the consumer.

In order to enable the widest possible distribution of sugar—so that all may have some sugar—we distribute Domino Cane Sugars in convenient-size packages.

These small-unit cartons and cotton bags enable grocers to limit their sales so that waste and hoarding may be prevented.

It will be necessary for grocers and consumers to watch carefully their distribution and purchases during the approaching period of readjustment. The refineries are now starting up and supplies of raw sugar coming forward, but it will take weeks, and possibly months, for the return of normal conditions.

Housewives can cooperate with this plan by buying these package sugars.

Your Flag and my Flag!
And, oh, how much it holds
Of your Land and my Land
Safe within its folds.
Your heart and my heart
Beat quicker at the sight;
Sun-kissed and wind-kissed,
The Red, the Blue and White!
The one Flag—the Great Flag—
The Flag for me and you—
Glorified the whole world wide—
The Red, the White, the Blue!

WHAT BUTTER SUPPLY MEANS

To cut down the butter supply of each member of the family a third of an ounce, or two level teaspoons a day may not seem like much of a saving, but when such an amount is saved in all of the 26,000,000 families in the United States the saving is not to be ignored.

It is better to save butter by substituting other fats in cooking, rather than by economizing on the butter used on the table. Adults may suffer no injury when butter is not served but children require butter fat for their growth and health. Hundreds of children abroad, especially in Poland, have died or become permanently stunted in growth because they had to go without butter fats for an extended period of time. The allies are asking for three times as much butter as they did at the beginning of the war, so butter will have to be spread on thin if it is to go around.

The surest way of making it possible for all to have what butter is necessary is to use none in cooking. The United States food administration gives the following suggestions for saving:

"If you have been in the habit of putting a generous lump of butter into a dish now and then, just to make it 'tasty,' forego this habit now.

"Never serve more than one fried dish a week.

"Always substitute chicken fat, or vegetable oils for butter in cooking.

"Make as little pastry as possible and all your pies with only one crust.

"Never put both gravy and butter on your potato.

"Use peanut-butter, jellies, cheese and fruit butters on bread for adults instead of butter."

FOOD WINS THE WAR

Soldiers will have wheat, if
The folks at home use corn, oats,
rye, barley, rice and potatoes.

Soldiers will have butter and lard;
If
The folks at home use cotton seed
oil, peanut oil, corn oil and drippings.

Soldiers will have sugar, if
The folks at home use molasses,
honey and syrups.

Soldiers will have beef, mutton,
pork and bacon, if
The folks at home use chicken,
eggs, fish, nuts, cottage cheese, peas
and beans.

Are you for America? Your answer
is the food you eat.

Don't eat the soldiers' food.

Croup at Midnight Well in Morning.

"A few nights ago one of my patrons had a small child taken with croup about midnight," writes M. T. Davis, Bearsville, W. Va. "They came to my store and got a bottle of Foley's Honey and Tar. Before morning the child had entirely recovered." Use only Foley's for coughs, colds, croup and grip. H. P. Dunn, druggist. mw

Be the First.

Many a quarrel would come to a speedy ending if both sides were not afraid of being the first to make advances. Instead of being unwilling to take the first step, you should be glad of the chance. Some of you perhaps, are a little inclined to be envious of the one who is a born leader, who is the first in so many things, but there is no greater honor than to be the first to end a misunderstanding, the first to say, "I'm sorry."—Exchange.

PRESIDENT PUTS
U. S. ON WAR DIET

Issues Proclamation Calling On
People To Cut Wheat Con-
sumption Further.

BURDEN ON AMERICA

Reduced European Productivity and
Destruction of Shipping Increases
Load Which U. S. Must
Carry, Says Executive.

Washington, Jan. 28.—(Calling upon the people to make their greatest effort toward conservation of food for the Allies, President Wilson has issued a proclamation in which he says the reduced productivity of Europe, the partial failure of crops and the destruction of shipping have placed practically the entire burden upon the shoulders of this country.

The message follows:

A Proclamation.

Many causes have contributed to create the necessity for a more intensive effort on the part of our people to save food in order that we may supply our associates in the war with the sustenance vitally necessary to them in these days of privation and stress. The reduced productivity of Europe because of the large diversion of man-power to the war, the partial failure of harvests and the elimination of the more distant markets for foodstuffs through the destruction of shipping places the burden of their subsistence very largely on our shoulders.

The food administration has formulated suggestions, which if followed will enable us to meet this great responsibility, without any real inconvenience on our part.

30 Per Cent Reduction Asked.

In order that we may reduce our consumption of wheat and wheat products by 30 per cent—a reduction imperatively necessary to provide the supply for overseas—wholesalers, jobbers and retailers should purchase and resell to their customers only 70 per cent of the amounts used in 1917. All manufacturers of alimentary pastes, biscuits, crackers, pastry and breakfast cereals should reduce their purchases and consumption of wheat and wheat flour to 70 per cent of their 1917 requirements, and all bakers of bread and rolls to 80 per cent of their current requirements.

Consumers should reduce their purchases of wheat products for home preparation to, at most, 70 per cent of those of last year, or when buying bread should purchase mixed cereal breads from the bakers.

To provide sufficient cereal food, homes, public eating places, dealers and manufacturers should substitute potatoes, vegetables, corn, barley, oats and rice products and the mixed cereal bread and other products of the bakers which contain an admixture of other cereals.

In order that consumption may be restricted to this extent, Mondays and Wednesdays should be observed as wheatless days each week and one meal each day should be observed as a wheatless meal.

In both homes and public eating places, in order to reduce the consumption of beef, pork and sheep products, Tuesday should be observed as a meatless day in each week, one meatless meal should be served in each day, while in addition Saturday in each week should further be observed as a day upon which there should be no consumption of pork products.

It is imperative that all waste and unnecessary consumption of all sorts of foodstuffs should be rigidly eliminated.

Maintenance of Health Necessary.

The maintenance of health and strength of our own people is vitally necessary at this time and there should be no dangerous restriction of the food supply, but the elimination of every sort of waste and the substitution of other commodities of which we have more abundant supplies for those which we need to save, will in no way impair the strength of our people and will enable us to meet one of the most pressing obligations of the war.

I, therefore, in the national interest, take the liberty of calling upon every loyal American to take fully to heart the suggestions which are being circulated by the food administration and of begging that they be followed. I am confident that the great body of our women who have labored so loyally in co-operation with the food administration for the success of food conservation will strengthen their efforts and will take it as a part of their burden in the national service to see that the above suggestions are observed throughout the land.

WOODROW WILSON.

German Held at Virginia.

Virginia, Minn., Jan. 28.—H. Lebler, a German who has been cooking in a camp of the Virginia and Rainy Lake company, was arrested on a technical charge of being a deserter, but is held on suspicion of being implicated in romantic trouble among lumberjacks employed by the company in the Casson country. It is reported there will be a strike here Feb. 1. Lebler has been in this country four years. He is alleged to have registered in Connecticut, then to have left before taking physical examination.

SECRECY NEEDED
BY THE DIPLOMAT

WHY THE PRESIDENT'S EFFORTS
TO ABOLISH IT WILL MEET
WITH OPPOSITION.

SENATE LIKES THE MYSTERY

Fears Public Discussion of Treaties
Might Offend Other Nations—
Rents in Washington Are Mount-
ing Every Month.

By ARTHUR W. DUNN.

Washington.—No doubt secrecy in diplomatic affairs is responsible for many mistakes of nations and much of the suffering of humanity, but will the effort of President Wilson and others who believe with him succeed in overturning the hoary-headed tradition? If there is no more secrecy in diplomatic matters there will be no more diplomats. Secrecy is their stock in trade; it is their support, their reason for existence. Remove the mystery from the diplomat and bring him into the plain light of day and he is no more than any other individual.

Of course it is supposed that President Wilson has no idea of putting his open-door diplomacy into effect until after the war is over. The president and all the allies will no doubt have use for all the secrecy and old-time diplomacy they ever used in order to win and establish a world democracy which may be asked to abolish secrecy in international affairs.

Senator Borah of Idaho took the lead to have treaties discussed in open session in the senate. He is not a pioneer in that field. For more than a quarter of a century efforts have been made to bring about the same results, but a majority of the senators have always insisted that all dealings with foreign countries must be in secret; that something might be said to offend a nation; that something might be disclosed about our own weakness. Generally, however, the main reason given for keeping all foreign negotiations secret is that publicity might defeat their accomplishment; that discussion might compel abandoning whatever movement was afoot.

Would Have Been Better.

It would have been better for this country if in the last quarter of a century all treaties had been discussed in the open. The splendid isolation of the United States before the Spanish war made it impossible for anything to be said in regard to our relations with foreign countries which would have injured the nation. The closer the relations with foreign governments, the more need there has been for secrecy and for withholding from the public the negotiations with those foreign governments. Much that has been done would have been abandoned if the public could have known what was going on, the objects and probable results. At the same time there will be strong opposition to the proposed open-door policy.

There is no man of more conserva-

tive mold than Congressman Fordney of Michigan, and consequently he is very much opposed to government ownership. This is what he told the house in a recent debate: "My friends, we are bordering close to government ownership. I doubt seriously if the railroads will ever return to private ownership again, and if not it is a mighty serious question for the people of the United States."

They Pay in Washington.

Those who do not own homes in Washington, and that includes the large number who have been brought here on account of the war, have to pay for the privilege of residing in the capital. Said Congressman Cox of Indiana to the house: "Rents in Washington have increased from 25 to 33 per cent. Taxes, insurance, electricity and gas are no higher, but the rents are mounting every month. Ask anybody why and the reply is 'on account of the war.'"

Discussion of the woman suffrage amendment in the house of representatives was disappointing to the thousands of women who crowded the galleries on the day it was adopted. No doubt the system under which the debate was conducted was responsible for the dullness. It was crowded into such a short space and so many men wanted to be heard that naturally the speeches were fragmentary as delivered, no matter if they were improved before appearing in the Record.

Then again the big leaders did not take part in the debate. The discussion was confined to men who were very much interested on one side or the other, but who do not handle the big questions in the house. The fact that the stage had been set for a long time for this occasion also robbed it of the dramatic interest that has characterized other occasions as "field days."

When the farm loan bill was before the senate Senator Sherman of Illinois took occasion to tell of the condition of the farmers in the West and wound up with this statement: "What the farmer in this country wants is freight cars and hired help. That he has not got and no loan measure can give it to him."

Adamant.

"She certainly has no use for him."
"That so?"
"She wouldn't even notice him when he had his uniform on."

Three Kinds of Sweet Odors.

Sweet odors are of three kinds—the floral, the aromatic and the balsamic. The first group includes all those derived from sweet-smelling flowers and plants; the second, those derived from musks and resins; the third, those derived from leaves and gums. The odor, or essential oil of perfume, is obtained in three several ways—distillation, maceration and enfleurage.

Forced to Assert Himself.

Harry's mother dressed in her new suit, furs, and hat, and took him for a visit to the neighbors. Of course, they were glad to see her and chatted fully five minutes, no one noticing Harry, who was standing just inside the door. He watched them for a moment more, then leisurely strode up and said: "Here's ole Harry." He was the attention from then on.

FOUND A CONTINENT

Captain Nathaniel B. Palmer in
Front Rank of Explorers.

Stonington, Conn., Was Birthplace of
Brave Sailor Who Was the First
to Discover Land in Great
Antarctic Ocean.

American sailors have in more than one instance proven, while following their pursuits, to be explorers of the first magnitude.

This fact is recalled in the case of Capt. Nathaniel B. Palmer, a native of Stonington, Conn., a port that once supported a prosperous fleet of merchant vessels.

Captain Palmer, when twenty years old, discovered the Antarctic continent. Today Captain Palmer's old home in the quiet seashore town of his birth is a place honored by resident and visitor alike, while a few miles from it, at Nook, a famous old shipyard, bearing still the name of Palmer, is perpetuating the traditions of the locality by turning out ships for the new merchant marine, under the construction program of the United States shipping board.

Captain Palmer was an active, strong, aggressive character. When as a lad of eighteen he made a voyage on the brig Hersilia as second mate, it chanced that he was landed at the Falkland islands to kill wild bullocks for meat, while his ship sailed away in search of an island of which the Yankee captains had heard vague stories, but had never seen.

In the absence of the Hersilia an Argentine vessel, the Espirito Santo, touched at the Falklands for water. Her captain told young Palmer that he was bound for a place where there were thousands of seals.

The Argentine sailed away before the Hersilia came back; but on his vessel's return, young Palmer insisted that she put after the Espirito Santo, in hope of finding the strange island.

This was done, and after many days' sailing, the Yankee brig found not only the vessel she had followed, but islands to that time unknown in North America, the South Shetlands.

In 1821, Nathaniel Palmer, as commander of a Stonington sloop, the Hero, sailed again to the South Shetlands for seals. Finding the seals nearly exterminated there, he sailed farther and farther in search of new sealing grounds, stopping only when he sighted land not laid down on any chart. There were numerous islands, and beyond them a wild coastline and dim mountains.

One night the Hero lay becalmed in a thick fog that enveloped her like a blanket. After taking the deck at midnight for the middle watch, Captain Palmer was astonished when his man at the helm struck one bell, to hear the sound repeated twice. The same thing happened at two bells and so on through the watch. Superstition had not left the seas in those days, and the men of the watch deck were alarmed.

At seven bells the fog lifted a little, and two men-of-war were seen not more than a mile away. After the United States ensign was run up at the main peak of the Hero, one of the

we sent a boat alongside with an invitation from Commander Bellingshausen of the Russian navy for the captain of the American sloop to come on board his ship.

Captain Palmer went just as he was dressed—in sea boots and sou'wester. The scene was one of impressive contrasts when Captain Palmer stepped into the commander's luxurious cabin.

The polished, accomplished Russian commander insisted on sitting down to luncheon with the rugged young Yankee in sea boots, a meal that Captain Palmer found elaborate, after the fare on the Hero.

The Russian officer had been two years on a voyage of discovery. He examined keenly the chart and log-book of the Hero, and questioned Captain Palmer at length concerning the land he had found.

Finally the commander arose, placed his hand upon the young captain's head, and said: "I name the land you have discovered 'Palmer Land' in your honor; but what will my august master say, and what will he think of my cruising for two years in search of the land that has been discovered by a boy, in a sloop only a little larger than the launch of my frigate?"

Islands named for Peter and Alexander are still so designated on charts of that part of the Antarctic; but the land found by the boy captain of Stonington appears on every chart of that part of the world as "Palmer Archipelago."

Women Gain on Men.

Professor Phillips of Amherst college believes that the American women of today are physically much finer and stronger than the women of yesterday, and that if the women continue their physical improvement in the succeeding generations as much as they have in the last generation, it will not be many centuries off when the American women will be as physically equal and fit as the American men.

His Fate.

"If he ever gets to the front, Jim will be hit the first thing with a shell."

"What makes you think so?"
"The law of natural affinity; he's such a nut."

Scientific Foresight.

"How did the boy get his motorcycle?"
"He seized the cycle-logical moment to ask for it."

Bath on Each Floor

Iron Exchange Hotel

Lewis Harrison, Mgr.
Brainerd, Minn.

Clear, Peachy Skin
Awaits Anyone Who
Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-checked people everywhere.

An inside bath is had by drinking each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

BETTER THAN CALOMEL

Thousands Have Discovered Dr.
Edwards' Olive Tablets are
a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets.

These pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to take Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. 10c and 25c a box. All druggists.

BOTH OF FIRM CALLED TO WAR

William V. and A. J. Turcotte, Popular Business Men of the City, Called to the Front

WILL DISPOSE OF THEIR STORE

Prove Invaluable in Army as Both Speak French Too, are Athletic and Energetic

The firm of Turcotte Brothers has been called for war service and William V. and A. J. Turcotte are about to dispose of their grocery business. Both have been called to their country's service and placed in Class A, 1, and come in the first call.

They are athletic and energetic and both will prove invaluable as they are good shots and also speak French well.

The firm, which handles groceries, flour and feed, in reviewing their business for the past year, wish to thank their many friends for their patronage not only for the past year but for the four and a half years that they have been in business for themselves.

Over four years ago the boys succeeded their father, H. Turcotte, then conducting the business at the same location, and have in that short time built up one of the best modern, up to date groceries in the city. They have been very careful to handle nothing but the very best of goods at all times and sold at the right prices. They kept their stock clean and fresh, being very careful in their buying not to overstock and their records show that in the past year they have turned over their entire stock eleven times.

On account of the war call they will be compelled to dispose of their business and have already been offered some very attractive propositions to sell the store.

TO OPEN TUESDAY

Ideal Hotel to Reopen at 502 Front Street, First Meals to be Served on January 29

The Ideal hotel re-opens Tuesday, January 29, at 502 Front street, just across the street from where the hotel was located over a year ago. All the regular boarders are coming back, in fact they clamored to have the hotel reopened.

True, the hotel will not be exactly perfect, but every day improvements will be made and in a short time the "Ideal standard" will soon be in evidence again.

Rooms have been provided on the second floor. Negotiations are under way to secure a lease of the Spalding and if successful this will be added to the present location, thus giving the Ideal a large number of rooms, a good lobby, etc.

The Drexton creamery has removed from 504 Front street to South Fifth street where the Deering tin shop was formerly maintained.

Both Mr. and Mrs. Larrabee were overcome by smoke and gas and have been sick for some time after the fire. Carpenters and decorators are at work at 502 Front street and getting things in readiness for the opening tomorrow.

BRAINERD'S ODDEST STORIES OF TODAY

It is reported there will be quite a crowd at the doctors examination headquarters this week when Pat Wood appears for physical examination. He has been drafted and ordered to be on hand at 8 in the morning. Pat now weighs 500 pounds and if accepted for trench warfare will necessitate the enlargement of all trenches that he is to guard.

INJURED IN FIRE

Mrs. Clara V. Hough Who Inhaled Smoke and Gas at Hotel Fire, Sick in Hospital

Mrs. Clara V. Hough, who had a suite of rooms on the second floor of the Ideal hotel, was nearly overcome by smoke at the time of the big fire which consumed the hotel.

She was taken to St. Joseph's hospital, seriously sick from the gas and smoke she had inhaled. Her heart was also affected by the excitement.

Gets Good Results Quickly.

These few lines from J. E. Haynes, McAlester, Okla., deserve careful reading by every one who values good health: "I find no medicine which acts so mildly and quickly with good results as Foley Cathartic Tablets. They empty the stomach and bowels, giving all of the digestive organs a healthy action." H. P. Dunn, druggist.

BRAKEMAN MEETS DEATH IN ACCIDENT

Daniel Duffy, Age 23, of Akeley, had Both Legs Cut off at Backus on Saturday

TRIED TO BOARD AN ENGINE

Fell on Rails and Struck, Man Taken to Brainerd Railway Hospital on the Engine

Daniel Duffy, age 23 and single, of Akeley, employed as a freight brakeman on the Minnesota & International railway, had both legs cut off in an accident Saturday afternoon at 4:30 o'clock, dying at a local hospital at 12:30 a. m. Sunday.

Duffy was a "student" brakeman and had been working about three weeks. No one saw the accident, but it is believed to have happened this way. The train stopped at Backus and the engine was detached and proceeded up the track for water. On the way back Duffy attempted to board the rear of the engine as it was backing up and fell directly under the wheels, lost his legs and was dragged some distance.

The injured man was rushed to a Brainerd hospital and every attention given him. He was conscious and talked to the men on the way down. His mother and brother arrived Sunday to see him. He leaves also a brother in the army service at Camp Dodge. J. W. Bush was conductor of the train.

NOTED MEN OF THE BIBLE

Series of Interesting Sermons to be Delivered at the First Methodist Church

BY PASTOR, REV. F. W. HILL

Noah, Jonah, Zaccheus, Elijah, Jesus, in Galaxy of Bible Men to be Discussed

A series of interesting sermons will be delivered by the pastor, Rev. F. W. Hill, Sunday evening at 7:45 p. m., at the Brainerd Methodist church. There will be special music by the chorus choir under the direction of Dr. E. E. Long, and the orchestra led by Wm. Rodenkirchen.

Jan. 27—"Noah," a Reserved Seat in the Ark. Music: Anthem, "Fear Not Ye, O Israel," Dudley Buck, by Miss Signe E. Beck, contralto; anthem, "O My Soul, Bless Thou Jehovah," Herbert.

Feb. 3—"Jonah," the Celebrated Whale Story. Music: Anthem, "Onward Christian Soldiers," Judge; solo, "Be Thou Nigh," Bailey, Miss Irene Brockway, soprano; anthem, "Master, the Tempest is Raging," Palmer.

Feb. 10—"Zaccheus," the Man up the Tree. Music: Anthem, "O Give Thanks," McPhail; solo, "Abide With Me," Liddle, by Mrs. V. W. Mackey, soprano; anthem, "Praise Ye the Lord," Vance.

Feb. 17—"Elijah," the Man Under the Tree. Music: Anthem, "Praise Ye Jehovah," Boudnot; solo, "The Lord Is My Light, Francis" Allitsen, by Miss Signe E. Beck, contralto; string quartet, Misses Jennie Keller, Hazel Worden, Hazel Keller and Wm. Rodenkirchen.

Feb. 24—"Jesus," the Pilot of Galilee. Music: Anthem, "Praise Ye the Lord," Williams; solo, "Crossing the Bar," Dudley Buck, by Dr. E. E. Long, baritone; anthem, "Blessed be the Lord," Ashford; offertory, cello solo, Wm. Rodenkirchen. Everybody is cordially invited.

WILL MOVE THIS WEEK

Surgical Dressing Classes will Occupy the New Quarter in Koop Block Last of Week

The new quarters of the surgical dressing classes in the Koop block are about ready for occupancy and the classes will move into the new rooms the latter part of the week. The furnishings required have nearly all been donated by generous citizens. The number of kitchen chairs required has not been entirely met and a dozen or more can yet be used to an advantage, also one more motor for sewing machine purposes. The appeal for a blackboard had hardly been made when the donation of a board was offered by C. H. Paine, and accepted, for which the ladies wish to return thanks as well as for the gift of a bolt of green oil cloth for covering tables from Mr. and Mrs. George Murphy.

Card of Thanks

We wish to thank all who helped us in our calamity. We thank the Ransford hotel management, Andrew Berglund, who so kindly showed us such fine courtesy, extended to ourselves. Grandma Larrabee and our help. We thank Mr. and Mrs. F. B. Winslow for their care of Mrs. E. M. Larrabee. To all others, friends and citizens, who aided us in saving belongings, we extend our thanks. It Mr. and Mrs. W. T. Larrabee.

WILLIAM PERCY PASSED AWAY

Former Brainerd Master Car Builder Died at Long Beach, Cal., of Pneumonia

CHARTER MEMBER K. P. LODGE

Remains Laid to Rest in the Mausoleum at Englewood, Cal.—Obituary is Given

William Percy, a former resident of Brainerd, died at Long Beach, Cal., following a week's siege of pneumonia. He was a master car builder of the Northern Pacific railway company at Brainerd and D. K. Fullerton at that time was under his employ. Mr. Percy came to Brainerd in 1882. He left Brainerd in 1898 and went to Stevens Point, Wis.

He was a charter member of the Knights of Pythias at Brainerd and was its second chancellor commander. His son William married a daughter of Larry McPherson.

The Long Beach Press of Long Beach, Cal., January 19, printed this obituary:

Wm. Percy was born February 11, 1849, in Morpeth county of Northumberland, England; came to London, Canada, at the age of 5 years, afterwards learned the trade of coach and carriage builder at Hamilton, Ont.; moved to New York, U. S. of A., in 1868; moved to England in 1870, where he married, and in 1872 came back to Hamilton, Ont., where his two sons, Wm. G. and John W., were born. He and his family returned to England in 1874. He came back to Hannibal, Mo., U. S. of A., in 1880, where he worked as coach builder for the Hannibal & St. Joe railway. He then moved to Brainerd, Minn., and rose to general foreman of coach and car works for the Northern Pacific railway, which position he held until 1898. He then served the Wisconsin Central railway as master car builder until 1907, when he moved to Long Beach, where he again married. He married Mrs. Lutina Rosella Booth, since living in Long Beach he has occupied the position of chief joint inspector of the railways running into Los Angeles. He leaves a widow, Mrs. L. R. Percy, at Long Beach, also two sons, John W. Percy of Long Beach and Frank Percy of Buffalo, N. Y. Their mother died when they were quite small. The remains of Wm. Percy were laid to rest in the mausoleum at Englewood, Cal.

NATIONAL THRIFT DAY

Feb. 3, 1918, is the Day, but the Observance will be on Monday, Feb. 4th, this Year

The first celebration of National Thrift Day was on Feb. 3, 1916, and approximately a thousand communities widely scattered throughout the United States participated in the movement. In one year Thrift Day became established in the minds of the public as firmly as any of the many legal holidays. With approximately 3,000 communities participating in Thrift Day, Feb. 3, 1917, it is quite fair to assume that with each succeeding year the observance will find its way even to the smallest hamlet in the United States and must eventually reach around the world.

BR'D ARMADA 39 PILLAGER HIGH 10

In a fast, exciting contest of basketball, the Brainerd Armada, led by Rear Admiral Clarke and Captain Sheffo, defeated the fast Pillager high school quintet on the Y. M. C. A. court Saturday night.

The game was a rush from beginning to end, Pillager starting the scoring with a field goal two seconds after the game had begun. The fast Armada five settled down, and the steady teamwork of the guards, combined with the quick, accurate shooting of the forwards soon piled up a score which Pillager never overcame. Captain Sheffo backed up his team at all stages of the contest, playing a good game at the center position. A. J. Thompson of the M. & I. auditing department, and "Bey" Warner played stellar basketball at the forward positions, Warner being the star of the game with six field goals to his credit. The creditable work of the Armada guards was a deciding feature in the victory, Robert Clarke stemming the tide of the Pillager rushes time and again together with "Mox" Mahlum who played the other guard position. Marken, a substitute for Clarke, showed his ability to play the game, handling the ball in a manner which bewildered his opponents.

Dorsey and Dower were the stars of the visiting team, Dorsey making most of their points. Pillager played a clean fast style of basketball, but the speedy teamwork of the Armada five, combined with good headwork defeated the fast visiting aggregation in a manner which will be long remembered. This is the third of a series of contests played by the Armada, and they are rapidly progressing in the finer points of the game doing away entirely with their former title "Never-Sweats." They play a "clean" snappy style of basketball which is admired by all spectators. Cunningham had his rooting well organized breaking out at intervals of the game in a manner which completely stunned the Pillager forwards. C. H. Kimball of the local high school officiated as referee and aided in making the contest one of a snappy nature.

The players: Pillager, Bailey, left forward; Dorsey, right forward; Dower, center; Horgrave, right guard; Mason, left guard. Armada—Thompson, left forward; Warner, right forward; Sheffo, center; Mahlum, right guard; Clarke, left guard. Substitutes, Marken for Clarke; Bull for Horgrave. Field goals, Bailey 1, Dorsey 2, Warner 6, Thompson 5, Sheffo 5, Mahlum 1, Clarke 1. Dorsey shot 2 fouls out of 8, Dower

We Have Received New Silk Dresses Advance Spring Styles

As the first spring flowers that modestly peep from the drab grasses of winter—these early spring dresses give a hint of forthcoming splendors of spring and summer apparel. "Paris is seeing it through" and with a brave effort of her old spirit has been kind enough to guide our American designers aright.

The first displays are not to be treated lightly, they are not to be minutely described in such an unresponsive medium as type—they are to be seen, and they will be admitted with an enthusiasm of spontaneous sincerity.

SUIT FOR ATTORNEY'S FEES

Swanson & Swanson Suit Against Charles J. Erickson on Trial This Afternoon

In district court the case of Swanson & Swanson vs Charles J. Erickson is on trial. It involves recovery of \$174 attorney's fees claimed. Erickson was arrested on a charge of introducing liquor into dry Indian country, employed the Swansons as attorneys, then pleaded guilty and served 90 days in the Altkin county jail. In company with several others he is alleged to have employed the attorneys then to intercede for him and secure a pardon and Hilding A. Swanson, it is alleged, went to Washington, D. C., and tried unsuccessfully to get a pardon.

The jury panel was early exhausted Monday morning and a second called. The trial of the case commenced in the afternoon. Harrison B. Sherwood appears for the defendant.

FIRE DESTROYED HOME

Mrs. John Aris of Hancock, Mich., Mother of Mrs. Fred T. Lincoln, Suffers Loss

Fire of unknown origin completely destroyed the home of Mrs. John Aris at Hancock, Michigan, Sunday morning, with all contents, according to a message received yesterday by Mrs. Fred T. Lincoln, her daughter, at whose home Mrs. Aris has been visiting until Saturday afternoon last, when she left for Hancock via Hibbing. Mr. Lincoln left on the afternoon train today for Hancock to take care of the business affairs of Mrs. Aris, who is left alone during her

only son's absence in the service of Uncle Sam.

A peculiar coincidence with the fire is the fact that Mrs. Aris had been worrying about her home, in view of the fact that so many serious fires had occurred lately and cut short her visit here in order to return to Hancock and her home there. The fire occurred before she had reached home and while she was the guest of her daughter at Hibbing on Sunday morning. Mr. Lincoln expects to return to his dest. Thursday morning, if able to make a satisfying railroad connection to the copper country.

Endurance of Reindeers. The reindeer is said to be able to endure more fatigue than any other draft animal except the camel. It has been known to pull 200 pounds 1 mile an hour for 12 hours.

BRAINERD PEOPLE

SHOULD EAT PIE DAILY

Pie is wholesome, combining both fruit and grain. Those who have trouble digesting pie should take ONE SPOONFUL, simple buckthorn bark, glycerine, etc., as mixed in Adler-Lika. This flushes the ENTIRE bowel tract, removes foul matter which poisoned your stomach for months and relieves ANY CASE sour stomach, gas or constipation and prevents appendicitis. Leaves stomach in condition to digest ANYTHING. Johnson's Pharmacy—Advt.

\$1.00 Will be Given

to each of several schoolboys who will deliver copies of the Curtis publications to customers. Only schoolboys—clean, gentlemanly and ambitious—need apply. The \$1.00 in addition to liberal cash profits and many other advantages. Apply to Robert Hargrave, Flat 2, Imperial Block, Brainerd, Minn. 26513

NEW FOOD CODE EFFECTIVE NOW

Country Goes On Bread Diet Prescribed by President and Food Administrator.

TO HELP ALLIES IS AIM

Government Depends Upon American Women to See That New Food Rules Are Observed—Two Wheatless Days Weekly.

Washington, Jan. 28.—As a part of a war rationing system prescribed by President Wilson and the food administration, the American people have gone on a war bread diet. "Victory bread," the food administration calls it.

The reduced rations are asked to create a larger export surplus of food for the European Allies. Curtailment of consumption will be accomplished largely by voluntary effort, but force will be employed wherever permitted under the food control act.

The rationing system, as presented by the President in a proclamation and by Food Administrator Hoover in a list of regulations, forms the food administration's 1918 food conservation program.

The Regulations.

The food administration has issued this statement:

"The following is a summary of the rules that have been formulated by the United States food administration, with the approval of the President, in order to effect the further conservation in foodstuffs necessary to support the Allies and our own armed forces over the next four months. These rules are effective from the morning of Monday, Jan. 28.

Rests With People.

"The effectiveness of these rules is dependent solely upon the good will of and the willingness to sacrifice by the American people. In the last analysis the success or failure of any plan such as here outlined rests with the people. We are dependent upon the co-operation of the trades. We have but one police force—the American woman—and we depend upon her to organize in co-operation with our state and local food administrators to see that these rules are obeyed by that small minority who may fail. Part of the rules will be enforced under the Lever food act; other parts are voluntary and will depend for their success upon public sentiment. Our experience hitherto has shown a willingness of the vast majority of consumers and a full co-operation of the trades, to undergo the self-sacrifice necessary to render such measures effective. The small minority who refuse to co-operate should not be allowed to defeat the nation's necessities.

Equal Purchases Asked.

"1. As their part in reducing the consumption of wheat flour, the consumers of the country are called upon, in purchasing such flour to buy at the same time an equal weight of the other cereals (cornmeal, cornstarch, corn flour, oatmeal, rolled oats, buckwheat flour, potato flour, sweet potato flour, soy bean flour and feterita flours and meals.) The housewife may use these products separately in making bread, cakes and pastry, or mix them as she thinks best. Retailers are to sell wheat only with an equal weight of these other cereals.

Bakers to Supply Mixed Breads.

"2. Consumers will be able to obtain mixed cereal bread from their bakers, who will be required under the license regulations to mix 5 per cent (5 per cent) of other cereals with their wheat flour, both in bread and rolls and will be required gradually to increase this substitution until beginning Feb. 24, a minimum of 20 per cent of such cereals is to be used. The food administration strongly urges on consumers the buying of this bread, which will be known as Victory bread, and will contain not less than 20 per cent of cereals other than wheat. Graham or whole wheat bread will also be given that name, because, containing as they do, 25 per cent more of the wheat grain than ordinary white bread, they, too, will serve the purpose of saving wheat flour.

"If you bake bread at home use wheat substitutes; if you buy it, buy only Victory bread.

White Flour Use Curtailed.

"3. Manufacturers of macaroni, spaghetti, noodles, crackers, breakfast foods, pie, cake and pastry are not to purchase to exceed 70 per cent (70 per cent) of the wheat flour they used during the corresponding months of 1917. These manufacturers will be performing a patriotic service by using cereals other than wheat in their productions.

Wholesalers will be required.

"4. Wholesalers will be required. First U. S. War Patients Reach Here. Baltimore, Jan. 28.—The first war patients to arrive in Baltimore from France have reached here and are at the United States General Hospital, Fort Henry. A total of 60 men—51 enlisted men, seven officers and two nurses—are now at the fort. The men arrived at an American port Wednesday and were brought direct to the hospital. It took them two weeks to get from France to an American port. They left on Jan. 9 and arrived on Jan. 23.

CHIEF PROVISIONS OF NEW U. S. FOOD CODE

A BAKER'S BREAD OF MIXED FLOURS, a 5 per cent substitution of other cereals for wheat until a 20 per cent substitution is reached Feb. 24. SALE BY RETAILERS TO HOUSEHOLDERS of an equal amount of substitute flours for every pound of wheat flour purchased at the time the wheat flour is bought. SALE BY MILLERS TO WHOLESALERS and wholesalers to retailers of only 70 per cent of the amount of flour sold last year. TWO WHEATLESS DAYS A WEEK—Monday and Wednesday—and one wheatless meal a day. ONE MEATLESS DAY A WEEK—Tuesday—and one meatless meal a day. TWO PORKLESS DAYS A WEEK—Tuesday and Saturday.

under license regulations not to buy more than 70 per cent of their purchases of flour from millers as based on their purchase for the corresponding months of the preceding year and their sales to the retail trade must be in the proportion of one pound of wheat flour to one pound of other cereals, this being in the same proportion in which the seller sells to the consumer unless the wholesaler satisfies himself that the substitutes have already been purchased from another source.

No Profiteering.

"A ruling has been made that in making any combination sales under this program, dealers shall name a price for each of the articles so sold which shall not represent more than a normal pre-war profit on any one of the articles sold.

"5. Millers of flour are to distribute their output through their customary channels and markets in such a manner that each city, town and district may receive its usual proportion. The wheat millers have been required to produce one barrel of flour (196 pounds) from 264 pounds of wheat. This is a white flour and represents from 2 per cent to 4 per cent higher extraction than from last year's harvest.

Two Wheatless Days.

"6. To assist further in conservation, Monday and Wednesday of each week are to be observed as wheatless days and one meal of each day as a wheatless meal. This applies both in the home and in the public eating place and on such days and meals no crackers, pastries, macaroni, breakfast food or other cereals containing wheat should be used. The only exception to this is such small amounts of flour as may be needed for thickening soups or gravies or as a binder in cornbread or other cereal breads.

"7. On wheatless days and at wheatless meals, the food administration urges that bread baked in the home be other than wheat bread. Where bread is purchased either for use in public eating places or in the home, Victory bread should be used, if no wheat substitutes can be found.

State Chief to Name Meal.

"The federal food administrator in each state will announce the meal to be observed as a wheatless meal in his state. If no meal is designated, the United States food administration prefers that the evening meal be wheatless.

"8. It is further desired, in order that meat and pork products be conserved, that one meatless day (Tuesday) in every week, and one meatless meal in every day, be observed, and, in addition, two porkless days (Tuesday and Saturday) in every week, be strictly kept. By 'meatless' is meant without hog, cattle or sheep products. On other days use mutton and lamb in preference to beef or pork. By 'porkless' is meant without pork, bacon, lard or other pork products, fresh or preserved. Use fish, poultry and eggs.

"9. For local situations where exceptions are necessary application should be made to the state food administrators.

BIG CUNARDER TORPEDOED

Steamship Andania Is Hit, but Not Sunk.

Belfast, Jan. 28.—The Cunard line steamer Andania was torpedoed, but not sunk, off the Ulster coast, says the Irish Daily Telegraph. The newspaper adds it is believed that no deaths resulted from the explosion.

The Andania was outward bound. She had on board about 40 passengers and more than 200 men in the crew.

The first torpedo missed the steamer, but the second found its mark amidships. The captain ordered the ship abandoned and passengers and crew embarked in the ship's boats.

After rowing for an hour they were rescued by trawlers and patrol boats and landed at a North Irish coast town.

Bandits Get \$300,000 in Gems.

Chicago, Jan. 28.—Four robbers, one of them posing as a detective, entered the offices of the Heller-Rose company, jewelers, in the heart of the downtown district, and escaped with jewelry valued at \$300,000 after locking a member of the firm and two stenographers in a washroom. The robbers entered the office of the company, which is on the ninth floor of the Marshall Field Annex building, while President Frank E. Rose and the stenographers were alone.

CZERNIN SPEECH SENT TO WILSON

Was Given To President Before Its Delivery, Says Austrian Foreign Minister.

MAY MEAN RUPTURE

German Press Thinks Action Indicates Repudiation of Kaiser And Sees Czernin As Pacifist.

Amsterdam, Jan. 28.—It is reported from Vienna on good authority that Count Czernin, the Austro-Hungarian foreign minister, has announced to the Austrian delegations that the text of his speech on the Austrian war aims was forwarded to President Wilson before its delivery.

This has caused a great sensation, according to the Cologne Gazette, which interprets it to mean that actual steps had already been taken to bring about an exchange of views between the Western powers and Russia and Germany.

Pan-German papers express the opinion that Count Czernin's peace invitation to President Wilson is indicative of a break in the Austro-German alliance.

Refers to Differences.

Addressing the foreign affairs committee of the Reichstag, Count Czernin, according to the Amsterdam dispatch to the Central News, referred frankly to the differences in the Austrian and German war aims. He explained that Germany wanted to get her colonies back and obviously could not consent to abandon occupied territory before securing guarantees of the restitution of her possessions. Austria, however, was differently situated. She stood everywhere on enemy territory, except in Eastern Galicia.

Socialists Are Wary.

The Socialish paper Vorwaerts joined in the controversy that has arisen in the German press as to whether Count Czernin's peace invitation to President Wilson is indicative of a break in the Austro-German alliance. Pan-German papers think that it is, but Vorwaerts points to the phrase in Von Suedemann's speech, "we are in agreement with Count Czernin," as proving, contrary to the Pan-German assumption, that "Count Czernin's fraternal kiss for President Wilson received the German government's blessing in advance."

SHIPPING HAS ENOUGH COAL

Situation in New York Reaches Normal Point.

New York, Jan. 28.—Steady improvement in New York's fuel supply with the coaling of steamships almost back to normal, is reported from the office of A. H. Smith, assistant director general of railroads.

More anthracite is moving to New Jersey tidewater terminals. It was stated, and greater quantities are being dumped each day. Although ice still chokes the harbor and 24 railroad tugs and 62 privately owned tugs are in dry docks for repairs as a result of damage from the floes, only 30 ocean-going vessels now remain to have their bunkers filled.

PACKING HOUSE STRIKE OFF

Agreement Reached by Which U. S. Will Set Wages.

Washington, Jan. 28.—Settlement of the dispute threatening a strike in the country's 10 largest packing house centers has been effected in an agreement providing that there shall be no discrimination against union members, and that questions of hours and wages shall be referred to an arbitrator appointed by Secretary of Labor Wilson.

It affects many thousand workers in Chicago, East St. Louis, Kansas City, Oklahoma City, Fort Worth, St. Joseph, Omaha, Denver, St. Paul and Sioux City.

5 U.S. INFANTRYMEN WOUNDED

Reported by Pershing, Who Gives No Details of Fight.

Washington, Jan. 28.—General Pershing has reported the wounding in action of five infantrymen of the expeditionary forces. No details of the fight were given.

Private Bergard Gorski, Chicago was severely wounded, and the following slightly wounded: Corporal Willie Carpenter, Mangum, Okla., and Privates Earl Ballard, Kannapolis, N. C., Casper A. Schwab, Harlan, Iowa. Carpenter was wounded Jan. 22, the others Jan. 21.

Six deaths from natural causes were reported.

Brazil Asks Help for Navy.

Washington, Jan. 28.—American efficiency methods will be introduced into the Brazilian navy. The South American republic has turned to the United States for assistance in building up its battle fleet. A corps of specially equipped officers will be dispatched at once. Captain Carl T. Voegelsang will head the American instructors. He will be accompanied by three or four officers who are recognized as experts in the several branches of naval training. Brazil plans to increase her naval strength.

Stars Not Visible From Well.

That stars are visible in the daytime from the bottom of a deep shaft or well has been generally believed since the days of Aristotle, but there is not the slightest foundation for the idea. Baron Humboldt, who spent a good deal of time in mines himself and questioned miners in various parts of the world, found no evidence in support of this belief, and it has since been thoroughly exploded. But, like many other "exploded" ideas, it flourishes just as vigorously as ever.—Popular Science Monthly.

Sweet Odors Always Popular.

From the very earliest ages man has loved sweet odors. In the Bible we read of the burning of incense on the altars and the very word perfumery (under which head we may include all delicate fumes or smells) comes from the Latin fumus, smoke or vapor. The early Egyptians knew the use of the still, and adapted it to the separation of the odorous principle from fragrant plants, but the most ancient odors were drawn from natural gums, such as camphor, myrrh and cinnamon.

Success Without Struggle.

Persons who have succeeded in any line have had to struggle for the triumphs that came their way. The road to success is not rose strewn by any means. It is a hard, wearisome thoroughfare, almost impassable in places. Therefore, if we are so foolish as to conclude that half-hearted or careless endeavors will result in our work being classed as up to the standard, or success suddenly casting a golden halo around us, we are doomed to disappointment.

Big Events in Small Territory.

Perhaps it is because the maps from which children used to learn Bible geography were on a large scale that most of us have failed to realize how narrow were the limits within which took place all those great doings that fill the books of Samuel and Kings. Just in the same way the classical scholar who visits Greece is surprised that so small a territory sufficed for so many striking incidents and for the careers of so many famous men.

Do Not Borrow Trouble.

I saw a delicate flower had grown up two feet high between the horse's path and the wheel track. An inch more to the right or left would have sealed its fate, or an inch higher; and yet it lived to flourish as much as if it had a thousand acres of untrodden space around it; it never knew the danger it incurred. It did not borrow trouble, nor invite an evil fate by apprehending it.—Thoreau.

"Doctoring" Heliotropes.

The delicate heliotrope is scarce and unprofitable to the perfumer. He detects in its odor, however, the aroma of vanilla combined with the sharper scent of bitter almonds. Therefore, he adds to a tincture of vanilla a small quantity of the otto of bitter almonds and rose and orange flower essence, and thus easily makes extract of heliotrope.

Proof of World's Great Age.

When we come to prehistoric man, Assyria is as yesterday. Discoveries made of skulls in various parts of Europe show that a low class of primitive man lived upon earth at least 250,000 years ago, and for 25,000 years a high type of man inhabited what is now central France.

When the Lion Divides.

The capitalist would have you believe that civilization rests on the accumulation of pounds, shillings and pence—pounds for the capitalist, shillings for the middlemen, and pence for the workers.—Sydney Australian Worker.

Two "Billys."

Billy Dean had a dog named Billy. One morning his mother opened the front door and asked a little neighbor boy if he had seen Billy, meaning her son. The boy asked, "Do you mean Billy Dean or Billy dog?"

To Tell the Speed of Trains.

A distinct click is heard every time the car wheel passes over a rail joint. With watch in hand, count the number of clicks in 20 seconds, and that will be the number of miles the train is going in an hour.

Palestine Vegetation.

Some of the vegetation of Palestine is plainly listed in the Scriptures, thus: "Go forth unto the mount, and fetch olive branches, and pine branches and myrtle branches." This found in Nehemiah 7:15.

Beware of Rusting Out.

The vacant house decays soonest, and the watch or the man that is kept running regularly lasts the longest and is of the most service while it lasts.

Went't Go.

"This thing can't go on!" exclaimed the shoe clerk, vainly trying to get a number two shoe on a number four foot.—Boston Transcript.

Passed On.

What has become of the old-fashioned married couples who used to advertise for a situation together on a farm?—Washington Post.

You Need Your Lawyer When Drawing Your Will

THE Drawing of your Will is too important a matter to be left in inexperienced or incompetent hands. Too many Wills have been declared invalid simply because of some carelessly placed or worded phrase or because of a lack of legal knowledge regarding such documents.

We strongly urge those who name this Trust Company Executor or Trustee to have their Wills and Trust Agreements drawn by a competent and trustworthy lawyer.

Your lawyer and this Trust Company, when working together in your interests, will form an effective combination for the exact execution of your wishes. Chance for error will be reduced to an absolute minimum. Kindly advise us when you nominate this Trust Company to act in any fiduciary capacity.

If you request, we will keep your Will or Trust Agreement in our own vaults free of cost.

WELLS-DICKEY TRUST CO.

57th ST AND 2nd AVE. SOUTH.
MINNEAPOLIS

WHERE TO BUY

Wear-ever Aluminum utensils, Ocedar mops and oil, Liquid veneer, furniture polish, Icy hot bottles and lunch kits, Perfection cook stoves and heaters, Liquid Granite floor finish, T. L. Blood's ready made Paints, Roger Bros. 1847 silver plated ware, Acorn Combination coal & Gas range. Henry Diston saws, of all kinds.

All our goods are of the highest quality, standard made and we fully guarantee every article.

White Bros.

Hardware and Sporting Goods

Tel. 57
